募集要項

We are currently a global company with more than 500 foreign engineers (from 50 countries).

Our engineers will be working on projects by clients. There are many projects related to Web application development especially using Java, C#, PHP, Python, Node.js, JavaScript (React, Angular, Vue), etc. Also there are various roles such as back-end engineers, front-end engineers or full stack engineers, and we will assign a project which matches your expertise of programming language or experiences.

Recently the projects related to Mobile application development using Java, Swift, Kotlin, React Native, Unity, etc. are increasing.

【Project examples】

- Management application development
 - Sales, stocks and reservation application development for retail
 - E-Commerce mobile application development for the cosmetics and apparel industries
-

スキル・資格

【Qualifications】

- 1+ year of experience developing Web or Mobile applications using either programming language
- Basic knowledge of DBMS
- Bachelor's or higher degree in Computer Science, Information Technology, Statistics or Mathematics

【Preferred Qualifications】

- Experience developing applications using AWS, Google Cloud Platform or Azure
 - Experience in creating documents in Japanese
-
