## 募集要項

### ★Global company !

We are currently a global company with more than 500 foreign engineers (from 50 countries).

### ★New graduates are welcomed !

- We have made offers to students who are scheduled to graduate in September 2022 and March2023.
- Many of our engineers are junior level.

### ★Full trainings !

- Japanese language
- Business manner
- Technical skills etc.

### ★Skills can be improved by learning new technology !

We have business with more than 300 clients, including major automobile manufacturers, major electronics manufacturers, major IT companies, as well as start-ups, so we can assign you to projects that fit your experience.

There are many projects related to web application development especially using Java, C#, PHP, Python, Node.js, JavaScript (React, Angular, Vue) etc.

Also, there are various roles such as back-end end, front-end, and full-stack. Recently, number of mobile application development using Java, Swift, Kotlin, React Native, Unity, etc. are increasing.

### ★Project examples !

- Cloud application development on AWS, Azure or Google Cloud Platform(GCP)
- Metaverse and IoT development for smart cities
- Disaster prevention information system and mobile app development

---
