募集要項

- Seeking an HEOR Lead to develop and execute evidence generation strategies, maximize asset value, and optimize medicine access throughout the product lifecycle. Collaborate with cross-functional teams and stakeholders to enhance study plans and ensure compliance.

Client Details

- Our client develops breakthrough therapies in oncology, immunology, cardiovascular, metabolic diseases
- Join a forward-thinking team of pharmaceutical professionals worldwide, working on groundbreaking projects and driving scientific advancements.

Description

- Develop & Implement Strategies:** Create HEOR generation strategies to support business objectives.
- Research & Publication:** Conduct and publish research to contribute to scientific knowledge and reputation.

- **Stakeholder Collaboration:** Engage in scientific discussions with internal and external stakeholders to enhance study plans.
- **Cross-Functional Teamwork:** Actively collaborate with related departments and within the HEOR team.
- **Compliance & Ethics:** Ensure adherence to compliance standards and Japanese research regulations.
- **Knowledge Sharing:** Stay updated on the latest HEOR/RWE trends and disseminate knowledge within the organization.
- **Evaluate COAs:** Lead the evaluation and development of PRO/QOL tools in clinical trials.
- **HTA Preparation:** Plan and prepare for the Japanese HTA system, developing negotiation strategies.
- **Regulatory Awareness:** Understand and assess the impact of related laws, guidelines, and trends in Japan and globally.

Job Offer

- **Competitive Salary:** Attractive compensation package.
- **Professional Growth:** Career development and advancement opportunities.
- **Supportive Environment:** Collaborative and dynamic team.
- **Impactful Role:** Contribute to strategic decisions and impactful research.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Ed Marsden on +813 6832 8981.

スキル・資格

- **Experience:** Proven track record in strategic planning and execution in HEOR/RWE.
- **Technical Skills:** Knowledge in epidemiology, biostatistics, health economics, observational research, and modeling.
- **Collaboration:** Ability to engage constructively with stakeholders.
- **Team Player:** Proactively collaborates with departments and HEOR team.
- **Compliance Knowledge:** Familiar with compliance standards and Japanese regulations.
- **Continuous Learning:** Keeps up-to-date with the latest trends and contributes knowledge to the organization.
- **Educational Background:** Master's or PhD in public health, pharmacoeconomics, or health economics.
