募集要項

1) About the company

We are currently looking for an iOS Software Engineer to work with a leading tech company in Japan.

They have an extremely strong and growing reputation for developing innovative products and are highly rated by their users.

They offer a flexible work arrangement with a diverse international team.

2) Who are you

- You are an experienced iOS apps developer.
- You are a self-motivated individual that enjoys working in a team.
- You love building incredible mobile experiences that touch a huge number of users.

3) Why should you apply

- Flexible work arrangements – office-based, remote work, or a hybrid model, your choice!
 - Highly diverse team coming from different countries with a Silicon Valley-inspired culture.
 - Relocation supports (ex. Visa support, moving costs, transportation and accommodations) are available for specific candidates.
-

スキル・資格

4) Requirements

- 2+ years team working experience and developing iOS apps.
- Proficiency in Swift.
- Good understanding of UIKit, code versioning tools such as git, and memory tuning tools such as Xcode instruments.
- Proficiency in Japanese OR English.

5) Desired skills

- Familiarity with application architecture from defining, designing, and shipping iOS applications.
- Interest or proficiency in UX and/or UI design.
- Understanding of Apple's API Design Guideline and Human Interface Guideline.
