募集要項

1)   About the company

We are currently looking for an iOS Software Engineer to work with a leading tech company in Japan.

They have an extremely strong and growing reputation for developing innovative products and are highly rated by their users.

They offer a flexible work arrangement with a diverse international team.

2)   Who are you

·   You are an experienced iOS apps developer.

·   You are a self-motivated individual that enjoys working in a team.

·   You love building incredible mobile experiences that touch a huge number of users.

3) Why should you apply

·   Flexible work arrangements – office-based, remote work, or a hybrid model, your choice!

·   Highly diverse team coming from different countries with a Silicon Valley-inspired culture.

·   Relocation supports (ex. Visa support, moving costs, transportation and accommodations) are available for specific candidates.

スキル・資格

4) Requirements

·   2+ years team working experience and developing iOS apps.

·   Proficiency in Swift.

·   Good understanding of UIKit, code versioning tools such as git, and memory tuning tools such as Xcode instruments.

·   Proficiency in Japanese OR English.

5) Desired skills

·   Familiarity with application architecture from defining, designing, and shipping iOS applications.

·   Interest or proficiency in UX and/or UI design.

·   Understanding of Apple's API Design Guideline and Human Interface Guideline.
