募集要項

A global leader in renewable energy is seeking a Procurement Contract Manager. The selected candidate will oversee procurement and contract activities for offshore wind projects.

A leading player in the renewable energy sector in Japan, this company focuses on the development and management of innovative clean energy projects. With a commitment to advancing sustainable solutions, it plays a pivotal role in shaping Japan's renewable energy landscape.

Keywords:

調達契約管理, オフショア風力発電, 契約交渉, サプライチェーン評価, コンプライアンス, 求人, 外資系

2085970/001

Responsibilities:

- Manage procurement and contract activities in accordance with Group Policies and procedures
- Coordinate procurement, contract management, sourcing, and local supply chain assessment
- Liaise with HQ Procurement and Contract Managers to integrate global knowledge locally
- Support procurement and contract management including sourcing, early negotiations, and RFQ process
- Negotiate contracts, review drafts, and develop procurement strategies, price negotiations, and delivery schedules
- Ensure contract compliance through legal checks and consult with HQ on contract matters

Requirements:

- Bachelor's degree or above in Engineering, Business, or related field
- More than 7 years of experience in procurement and contract management in large infrastructure or offshore wind projects
- Proven experience in negotiating and executing high-value contracts
- Strong interpersonal communication skills
- Fluent level Japanese (JLPT N2+); business level English (C2+)

会社説明

We've been a driving force in the Japanese bilingual recruitment market, providing high quality candidates for our clients and access to the best jobs for over 20 years. We operate a team-based profit share system which, we believe, sets us apart from the majority of competitors by enabling us to always put the interests of our clients and candidates first. That means we can find the best fit for employer and job seeker, and we never push people into unsuitable roles.
