募集要項

This role involves managing invoicing and reporting requirements using Excel and ERP systems, with a focus on automating processes through tools like Power BI. The position requires strong communication skills in both Japanese and English and occasional business travel.

Client Details

The company is a global leader in technology protection and support services, providing innovative solutions for device protection, repair, and technical support. With a presence in multiple countries, the company offers comprehensive coverage plans and support services for a wide range of consumer electronics, including smartphones, tablets, and home appliances. The company is known for its customer-centric approach, delivering fast and efficient service to millions of users worldwide. Its services are backed by cutting-edge technology, a skilled workforce, and a commitment to helping customers stay connected and productive.

Description

Key Responsibilities

- Serve as the Point of Contact (POC) for partner Invoicing and Reporting requirements.
- Prepare monthly invoices using Excel and ERP (D365) data.
- Analyze and document process improvement requirements for automation.
- Collaborate with various teams to automate invoicing processes using tools like Power BI.
- Support communication between the Global IT team and stakeholders in Japan.

Job Offer

Travel

- Occasional Travel to Shizuoka needed.

Additional Benefits

- Hybrid - required 2 days in office, 3 days at home
- Paid Company holidays.
- Paid Overtime.
- Supporting one of Japan's largest mobile phone companies, an exciting opportunity for anyone wanting to build experience and wanting to grow their reputation.
