### 募集要項

**Position:** Aero Engine MRO Specialist.

**Location:** Nagoya

**Language:** Bilingual

#### Job Description:

#### Key Responsibilities:

#### Facility Setup and Management:

- Lead the design and layout of the new MRO facility to optimize workflow and efficiency.
- Oversee the procurement and installation of necessary equipment and tools.
- Coordinate with construction teams and contractors to ensure timely completion of the facility

#### Regulatory Compliance:

- Ensure the new MRO facility complies with all relevant aviation regulations and standards (e.g., FAA, EASA).
- Develop and implement quality control and safety procedures in line with industry standards.

**Process Development:**

- Establish and document standard operating procedures (SOPs) for all maintenance and repair activities.
- Implement best practices for engine inspection, repair, and overhaul to ensure high-quality service delivery.

**Team Building and Training:**

- Recruit, train, and manage a team of skilled technicians and support staff.
- Develop training programs to ensure all personnel are up-to-date with the latest industry practices and technologies.

**Project Management:**

- Develop project plans, timelines, and budgets for the MRO setup.
- Monitor progress and make adjustments as necessary to stay on track and within budget.

**Stakeholder Communication:**

- Liaise with internal and external stakeholders, including suppliers, regulatory bodies, and customers.
- Provide regular updates to senior management on the progress and status of the MRO setup.

---

**スキル・資格****Qualifications:**

- Education:
  - Bachelor's degree in Aerospace Engineering, Mechanical Engineering, or a related field. Advanced degree preferred.
- Experience:
  - Minimum of 10 years of experience in aero engine maintenance, repair, and overhaul.
  - Proven experience in setting up or managing MRO facilities.
  - In-depth knowledge of aviation regulations and standards (e.g., FAA, EASA).
- Skills:
  - Strong project management skills with the ability to manage multiple tasks simultaneously.
  - Excellent problem-solving abilities and attention to detail.
  - Strong leadership and team-building skills.
  - Effective communication and interpersonal skills.
- Certifications: Relevant industry certifications are highly desirable.
