### 募集要項

#### 【About the Company】

The company has created a security camera service that can be easily accessed via Internet. Using video to reduce labor and improve communication. Its use as a content distribution solution that is expanding at various sites, including chain stores and construction sites.

Currently, under the vision of "creating the future from video," they need to acquire data from the video as well as video

distribution.

Therefore, the future of "AI x video data utilization" such as traffic congestion prediction and store visit analysis is being created. A video platform that can be used by any technology and that can be used by anyone from companies to individuals

◎ It is a venture company established in October 2014 ◎

The company developed and provided easy-to-use video services, and in 2017 they achieved the top market share in the cloud camera service industry. Reduce human labor, eliminate human anxiety., generate human time and will continue to pursue smarter cameras.

### **【Job Description】**

#### **【Recruitment Background】**

With the vision of "creating the future through video," the company is developing solutions based on a cloud video platform.

Sales organizations specializing in each industry - Business Unit 1 (service and retail industry) and Business Unit 2 (construction, manufacturing, and facilities industry) - will dig deeper into on-site issues, while the Development Division and Planning Division will work together in a "creating" organization to provide high-quality, reasonably priced "video solutions" with a sense of speed. We will realize DX onsite in all industries.

The company is looking for a person to lead product development as a product manager in its "creating" organization, the Planning Division!

#### **【Responsibilities】**

PoC

Development Requirements Definition, Prioritization

Project management

Market launch and sales support

### **【Working Hour】**

Discretionary Work System

### **【Welfare】**

- Full social insurance
- Commuting allowance
- Free drink
- Proximity rent allowance (only for residents within 2 km from the office or within 2 stations)
- Book purchase assistance
- Study session, seminar participation fee assistance
- Multi-department exchange lunch assistance
- Side work is possible

### **【Holiday】**

- Saturday/Sunday/National Holiday
  - Annual Paid Leave
  - New Year Holiday
- etc.

---

### **スキル・資格**

#### **【Required】**

Experience in planning and project management related to embedded devices

Experience in planning or development based on understanding customer needs, creating requirement definitions, and prioritizing requirements.

Knowledge of hardware, software, and networking and experience directing engineers.

Able to take ownership of the project.

#### **【Preferred】**

Former/current engineers with PM or experience as a project lead

Experience in leadership/management related to embedded devices

Experience in firmware and hardware development, regardless of work/hobby

Experience in launching new products

Experience in not only planning but also selling products to users and taking ownership of the service.

Able to think from the user's point of view.

Analytical and problem-solving skills.

Have initiative, flexibility, and a sense of speed.

Experience in SaaS/PaaS business
