Job Description

Team Description

The Workplace Services (WPS) team is responsible for curating and sustaining our unique work environments worldwide helping bring our purpose to life in the physical sense. We are accountable for the entire life cycle of our physical workplaces

from 'ideation to expiration' and we are a key influencer of the employee experience through our workspaces services and amenities.

Role Description

In the WPS Manager role you will contribute to a company that lives its brand and understands that WPS plays a critical role in defining the future. This individual will be an essential addition to the team taking ownership and responsibility for WPS Programs and Services for Japan.

You will be both execution focused helping to ensure our day to day business runs the way it should and strategy focused helping to ensure we contribute to a long term health; you will move between these elevations frequently.

You will develop deliver and manage employee programs including Food Services Fitness and more. You can both maintain and lead the program while providing stellar customer service.

スキル・資格
