募集要項

AR Manager role to be a specialist to manage contract-related accounting, ensure IFRS compliance, and maintain financial integrity in customer transactions. | WFH, flex time, global environment.

Client Details

Our client is a leading global medical technology firm specializes in imaging, diagnostics, and digital health. They heavily invest in R&D to advance precision medicine and improve patient outcomes, with a particular emphasis on AI and machine learning. In Japan, the company provides advanced medical technologies and collaborates with local providers to drive innovation, focusing on enhancing diagnostic accuracy and maintaining a strong competitive presence.

Description

- Ensure compliant contract and order setup with Contract Admin.
- Perform determination checks and allocate transaction prices.
- Verify contract setups and triggers for revenue accounting.
- Process and approve Revenue Accounting Contracts; post new orders and revenue.
- Monitor and reconcile value flows and accuracy of records at the contract level.
- Review price determination, cost allocations, and manage revenue deferrals and WIP inventory.

Job Offer

- Work-life balance
- WFH and flex time
- Global environment

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Karisa Djohan on +81 3 6832 8605.

スキル・資格

- Over 5 years of accounting experience, with a focus on revenue recognition and maintenance contracts preferred.
- Familiarity with SAP and ERP systems.
- Skilled in coordinating with contract and negotiation teams for posting processes.
- Proficient with numbers, data, and digital tools.
- Strong proficiency in Japanese and English.
