募集要項

- Drive the management and operation of CRM systems, databases, and BI tools to enhance productivity across the company. This role is pivotal in shaping the future of commercial and medical data management.

Client Details

- Our client is a leading science and technology company, deeply committed to improving lives through innovative healthcare solutions. Their global reach and dedication to scientific advancement make them a top choice for professionals seeking impactful work in a supportive, forward-thinking environment.

Description

- Manage and operate CRM systems, SQL databases, and AWS services.

- Lead commercial data operations and strategic enhancements.
- Design and plan data collection to support business needs.
- Ensure data accuracy and availability for comprehensive business analytics.
- Provide tools and resources for data visualization and analysis.
- Oversee BI tools development, enhancement, and maintenance.
- Collaborate with global teams to align data strategies.
- Consult with business units on data strategies to meet business objectives.
- Manage governance for data distribution and create long-term reports/dashboards.
- Work with IT to ensure the smooth operation of company databases.

Job Offer

- Competitive salary and benefits.
- Opportunities for professional growth.
- Collaborative and inclusive work environment.
- Cutting-edge technology and innovation projects.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Ed Marsden on +813 6832 8981.

スキル・資格

- Expertise in CRM systems, SQL databases, and BI tools.
 - Strong leadership and strategic planning skills.
 - Ability to work in a global, collaborative environment.
 - Detail-oriented with a focus on data accuracy and quality.
