募集要項

- Lead the operation and optimization of commercial data systems in Japan. Collaborate across global and local teams to enhance productivity and efficiency.

Client Details

- Major US Biopharmaceutical company
- Our client offers a unique work environment where every project has a meaningful impact on patients' lives. With a focus on innovation and collaboration, they provide opportunities for professional growth alongside diverse, high-achieving teams. Employees enjoy a balanced and flexible work environment with competitive benefits.

Description

- Manage commercial solution systems (CSCAN, VEEVA, etc.) to drive productivity.
- Lead cross-functional discussions and align local business needs with global IT teams.
- Oversee system maintenance, enhancements, and master data accuracy.
- Simplify field reporting for strategic territory planning.
- Provide training and support to field teams on systems like Veeva CRM.
- Act as the commercialization data expert for system development and deployment.

Job Offer

- Competitive salary and benefits package.
- Flexible working environment.
- Opportunities for career growth and global exposure.
- A chance to contribute to a meaningful mission in healthcare.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Ed Marsden on +813 6832 8981.

スキル・資格

- 10+ years of commercial experience in the pharmaceutical industry.
- Strong knowledge of pharmaceutical data systems and sales effectiveness.
- Excellent communication and cross-functional collaboration skills.
- Resilient and able to thrive in a fast-paced, dynamic environment.
- Fluent in Japanese, with business-level English proficiency.

会社説明

*Multinational biopharmaceutical company with focus on the development of lifesaving therapies that treat disorders such as oncology and immunological related afflictions.
