募集要項

We are developing products related to a payment platform.

企業情報

Japanese company, HQ is in Tokyo but we are looking for someone in Fukuoka branch

職務内容

In our section, we provide a payment gateway to process payment requests for its services and external merchants.

The Fukuoka Development Group, which is currently hiring, is developing a web application that allows users to view and

manage information related to the payment gateway. We are also developing and operating a batch process for monthly payment processing.

As part of your role, you will primarily implement and conduct QA for the backend using Java/Spring Boot and the frontend using React (with some use of Thymeleaf).

Required Skills

- Java
- Communication skills in Japanese or English (one is sufficient)

条件・待遇

Employment Conditions

- **Initial Contract Period**: Long-term expected (initially 2 months, then renewed every 3 months)
- **Days Off**: Weekends and holidays
- **Working Hours**: 9:00 AM - 5:30 PM (Break: 12:00 PM - 1:00 PM)

Office is at Hakata Ekimae
