### 募集要項

#### Responsibilities:

- Provide touch support for data center equipment including servers, backup systems, storage devices, and network equipment.
- Perform hands-on tasks such as inventory capture, logistics support, portable storage media management, shipping/receiving, and asset tagging/barcoding.
- Coordinate with hardware vendors for replacements and facilitate restoration time during business hours.
- Conduct visual inspections and fault isolation for third-party equipment.
- Assist in diagnosing and resolving system-related issues, coordinating with third-party vendors when necessary.
- Rack, stack, install, and decommission equipment as requested.
- Conduct network cable testing, patching, and end-to-end network patching.
- Provide after-hours support for critical network upgrades and maintenance.
- Participate in disaster recovery testing and maintain timely communication on issue status and resolution.
- Update tickets for all reported incidents and troubleshoot network connectivity issues using diagnostic tools.
- Provide project-based support as requested by clients.

- Conduct annual audits of offsite tape storage vendors' inventory.
  - Prepare and manage media for off-site storage and transfer as requested by clients.
  - Log and track physical storage media in tape tracking systems.
  - Manage inventory, insertion, collection, and reconciliation of tapes in storage libraries.
  - Follow structured cabling best practices including clean routing and labeling of cables.
- 

## スキル・資格

### Requirements:

- Business Level English and Japanese (N3 Minimum) to effectively liaise with the stakeholders of the region
  - Experience in data center operations and equipment maintenance.
  - Knowledge of network infrastructure and troubleshooting methodologies.
  - Familiarity with inventory management and logistics procedures.
  - Ability to work independently and in a team environment.
  - Strong communication and customer service skills.
  - Flexibility to provide after-hours support and onsite presence within 4 hours when needed.
  - Note: Training and guidance will be provided as necessary.
-
