## 募集要項

As Demand & Supply Planning Manager, you will be responsible for leading a small team responsible for specific brand areas, to ensure that a robust planning process is in place in order to maintain stable supply to the market. This will be a key role to further enhance the planning process.

**Client Details**

Our client is a leading global company in the consumer goods industry, with a strong reputation for innovation and excellence. With a broad portfolio of trusted, iconic brands, they are committed to delivering high-quality products that make a difference in people's lives.

**Description**

- Lead forecasting and Integrated Business Planning (IBP) processes to drive success for the business franchise.
- Ensure seamless collaboration across sales, marketing, and supply chain teams to support business goals.
- Analyze and resolve supply chain challenges, recommending strategies for continuous improvement.
- Drive successful execution of New Product Introductions (NPI) in coordination with regional teams.
- Manage and develop a team of professionals, fostering growth and enhancing team performance.
- Collaborate with key stakeholders to optimize inventory, service levels, and financial outcomes.

**Job Offer**

- Competitive salary up to 12M JPY per annum
- Opportunity to work in a collaborative environment, across multiple functions within the business

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Mike Corbyn on +813 6832 8601.

---

**スキル・資格**

- Bachelor's degree in a related field (Supply Chain, Business, etc.) nice to have
- 5-8 years of relevant experience, including 2 years in management
- Strong analytical and leadership skills with the ability to manage multiple projects
- Fluent Japanese and business-level English proficiency
- Experience in customer interfaces and cross-functional collaboration

---
