募集要項

This role is responsible for managing and leading a team to deliver effective Distribution & Logistics Operations in areas for Warehousing, Planning, Inventory Control, Logistics, Transportation, 3PL Management, Imports / Exports, Operations Compliance, Project Management, Process Improvement and Strategy to ensure high performance & service standards.

Client Details

The company is a global health and wellness community born to support you in living your best life. For over 40 years and in more than 90 countries, the company has empowered millions of people to make real changes to their lives with their science-backed products, the support of a coach. More than 140 high-quality branded products primarily in the categories of weight management, targeted nutrition and sports nutrition.

Description

- Oversee the day-to-day support operations that facilitate the smooth running of distribution and logistics activities. Ensure that all support tasks are performed efficiently and align with overall operational goals
- Coordinate with internal departments (such as Planning, GTS, Controller, Member Relations) and external partners (including carriers and third-party logistics providers) to ensure cohesive operation and resolve any logistical issues
- Manage and develop the logistics support team, providing training, guidance, and performance management to

- ensure a high-performing team
- Develop Warehousing Infrastructure & Partners with adequate capacity / technologies to manage processing of Pickup / Home Deliveries with high service standards to the Members
- Ensure all Warehousing locations are compliant with local regulatory & company Quality Requirements for Storage / Handling & Distribution of company Products
- Ensure an effectiveness in country distribution network for supply of company Products
- Drive import / export operations for company Products ensuring clearances are in line with current import/export codes, regulations
- Implement an effective 3PL warehouse management program through frequent 3PL reviews & ensure Partners meet agreed KPIs
- Support Business requirements for better Product Access along with review of trending Distribution models
- Ensure all distribution and logistics activities comply with regulatory requirements and internal policies. Monitor compliance and adapt practices to meet changing regulations and standards.
- Drive inventory accuracy with proper controls at all company Inventory storage locations

Job Offer
