### 募集要項

#### 1.) About the company

We are currently looking for a Frontend Web Developer to work in a rapidly expanding e-commerce company in Japan.

They have an extremely strong and growing reputation as they have had significant growth in the last couple years, with gaining +8million monthly users.

The company is looking to expand from 45 to 100 engineers in the next year and a half, whilst seeking to become a \$1 billion IPO at the same time.

Currently they are looking to expand their global product team, which is full bilingual and international - with a 50/50 split between Japanese and English.

#### 2.) Who are you

- You are an experienced Frontend Developer.
- You are a self-motivated individual that enjoys working in a team.

- You love building incredible web applications that touch a huge number of users.
- You are fluent in Japanese and English.

### 3.) Why you should apply

- Global and domestic product - fashion / sneaker goods.
  - Talented team coming from Mercari, Samsung, Apple, BizReach, MIXI etc
  - Culture - Most employees are in their late 20's & 30's with a flat management system.
  - Flexible work arrangements - full remote work, or hybrid, your choice!
  - Salary revisions every 6 months, with lots of flexibility to grow into senior roles.
- 

## スキル・資格

### 4.) Requirements

- +3 years of frontend development experience using either React.js, Vue.js, Angular, Nuxt.js etc.
- At least 1 year development on an inhouse product.
- Ability to proceed with software development with ownership
- Fluent in Japanese - N1 level, or N2 with prior work experience in full Japanese.

### 5.) Nice to have

- Experience developing web services using server-side languages
  - Development experience in large-scale consumer services
-
