募集要項

Position: Safety Department Manager

Salary: 100,000 THB/Month

Location: Prachinburi

Responsible for:

Power & Non Power Business Group, Prachinburi Factory Site (Industrial Estate 304)

Key Responsibilities

• Environmental, Safety & Health Management:

- Supervise, manage, and control environmental, safety, and occupational health work.
- Ensure compliance with legal requirements and company policies.
- Develop operational plans to meet safety and health goals.

• Annual Safety & Health Planning:

- Prepare and oversee the Safety & Health Master Plan.

- Develop strategies and action plans for sustainable safety and occupational health.
 - **Quality Standards Management:**
 - Prepare and manage the Quality Standard Master Plan.
 - Ensure compliance with ISO9001:2015, ISO14001:2015, and TIS&OHSAS18001:2008 standards.
 - **Compliance & Legal Reporting:**
 - Plan and report on compliance with safety and health laws.
 - Update and implement new legal requirements as needed.
 - **Environmental Impact & Risk Assessment:**
 - Analyze and report on compliance with environmental laws.
 - Assess and manage safety and health risks.
 - **Safety Management Program:**
 - Develop and improve safety and occupational health operations.
 - Oversee project management and drive continuous improvement.
 - **CSR & Community Responsibility:**
 - Plan and supervise CSR projects.
 - Ensure compliance with CSR-DIW/ISO2600 standards.
 - **Industrial Waste Management:**
 - Manage permits and processes for industrial waste disposal.
 - Develop strategies to reduce waste and increase efficiency.
 - **Pollution Prevention Systems:**
 - Improve air and wastewater treatment systems.
 - Ensure compliance with pollution standards.
 - **Audits & Reporting:**
 - Coordinate audits from external and internal agencies.
 - Prepare reports and documentation for regulatory compliance.
 - **Policy Communication & Approval:**
 - Develop and communicate environmental, safety, and health policies.
 - Align goals and plans with the organization's vision and mission.
 - **Work Procedures & Standards:**
 - Maintain up-to-date work procedure documents.
 - Ensure compliance with ISO and legal standards.
 - **Budget & Inspections:**
 - Control the budget for safety, health, and standards.
 - Conduct internal and external audits according to the annual plan.
 - **Risk Management & Internal Control:**
 - Evaluate and improve risk management and internal control systems.
 - Supervise standard certification and internal control system audits.
-
