募集要項

Position: Welding Section Manager

Location: Sri Maha Pot, Prachinburi

Job Description:

- Supervising Welders and Welding Teams by managing the day-to-day activities of welding personnel, assigning tasks, and ensuring team productivity.
- Ensuring that welds meet the required quality standards, specifications, and certifications.
- Implementing and monitoring safety protocols to ensure compliance with OSHA and other safety regulations.
- Welding Procedure Development by establishing welding procedures, selecting appropriate welding techniques and determining the best materials.
- Inventory and Equipment Management to ensure welding equipment and materials are maintained, calibrated, and available when needed.
- Providing ongoing training and skill development for welders, ensuring they are up to date on best practices and safety standards.
- Project Planning and Budgeting: Coordinating with project managers to ensure welding tasks are completed on time and within budget.
- Addressing any issues that arise during the welding process, from technical challenges to workforce management.

- Leading and coaching subordinate to reach the project timeline and goals.

Qualification

- Experience over 3-5 years in welding background from manufacturing business.
 - Bachelor degree of Engineering or any related fields.
 - Knowledge in Program: AutoCAD, VISIO, MAXIMO and MS Office.
 - Deep understanding of different welding techniques, materials, and the ability to interpret blueprints and technical drawings.
 - Strong leadership skills to manage teams, coupled with the ability to communicate effectively with both staff and upper management.
 - Ensuring high-quality work by carefully inspecting and monitoring welding projects.
 - Ability to manage multiple welding projects, ensuring adherence to deadlines, budgets, and safety standards.
 - Capable of quickly identifying and resolving issues related to welding procedures, equipment, or personnel.
