募集要項

- Provide comprehensive risk management services, assisting the Risk Management Directorate in various business processes, including:

- Operational Risk Monitoring
- Project Risk Assessment
- Internal Control and Business Continuity
- Portfolio and Counterparty Risk Management
- Risk Policy, Planning, and Governance

- Support the assessment, monitoring, and reporting of operational risks across all functions and subsidiaries, including terminal and ship performance improvements.

- Assist in evaluating investment proposals, both organic and inorganic, and support international expansion initiatives.

- Help develop systems and digital tools for risk management within the organization.

- Collaborate in designing and refining business processes related to risk management.

- Maintain and update risk registers, ensuring compliance and timely reporting from all risk owners.
- Prepare for internal audits and simulations related to business continuity management.
- Monitor vendor and partner compliance through thorough documentation and risk assessments.
