募集要項

Our Client:

Global company focusing on telecommunications, automotive, energy, and medical sectors. It produces essential products like optical fibers, power cables, and wiring harnesses, supporting high-speed communication, energy transmission, and modern vehicle systems. The company also manufactures medical devices and diagnostic equipment, contributing to healthcare advancements.

Responsibilities:

- Ensure the seamless operation of day-to-day activities within our group companies, this is a regional role that covers Singapore, other Southeast Asia countries and greater China region
- Support the implementation of initiatives that align with headquarters' strategic direction.
- Uphold IT governance and ensure compliance with IT policies.

- Troubleshoot and resolve issues related to applications, software, and network systems.
- Plan, design, and implement application systems and IT infrastructure.

Requirements:

- Degree in Computer Science or a related IT field.
- 2-3 years of relevant experience in a similar role or organization.
- Chinese-speaker to support end users in other Asia region including China, Hong Kong and Taiwan
- Knowledge of WAN, LAN, and wireless networking.
- Proficiency in troubleshooting and resolving issues with applications, software, and hardware.
- Familiarity with general operating systems, office software, and applications.
- Understanding of database and network security systems.
- Strong knowledge of computer hardware systems.
- Good understanding of electronic information security.
- Experience with J-SOX or a similar framework is an advantage.
- Excellent communication skills.
- A team player with the ability to work independently.

Apply online or feel free to contact me directly (via email: tingyee.lim@jac-recruitment.com) for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
