募集要項

Company and Job Overview

In the advanced manufacturing industry, a leading company specializing in the manufacturing and sales of semiconductor equipment-related products is seeking a Quality Control Staff Engineer/Manager to join as a pioneer member in a new start-up division. This role involves ensuring product quality, implementing quality management systems, and collaborating with various departments to meet customer needs and business objectives. The ideal candidate will have a strong background in quality control and quality assurance, excellent communication skills, and a proven ability to build and maintain effective working relationships. This is an exciting opportunity for a professional looking to contribute to a company known for its high-quality products and innovative solutions.

Job Responsibilities

- Develop and maintain quality control systems to ensure compliance with standards and regulations.
- Supervise and train quality control team members, ensuring effective inspection processes.
- Oversee inspection and testing of materials and products, managing tools and equipment maintenance.
- Lead continuous improvement initiatives and collaborate with other departments to address quality issues.
- Ensure all quality control processes comply with relevant industry standards and regulations (e.g., ISO, ASTM).
- Stay updated on changes in regulations and implement necessary adjustments to QC processes.

Job Requirements

- Bachelor's degree in Engineering, Manufacturing, or a related field.

- Minimum of 5-7 years of experience in quality control within metal fabrication or a related manufacturing environment. At least 2-3 years in a supervisory/management role.
- ASQ Certified Quality Manager, Six Sigma certificate, or equivalent preferred.
- Strong understanding of metal fabrication processes, materials, and industry standards.
- Proficiency in using inspection tools and equipment (e.g., calipers, micrometers, CMMs).
- Excellent problem-solving, analytical, and decision-making abilities.
- Strong leadership and team management skills.
- Effective communication and interpersonal skills.
- Knowledge of quality management systems (e.g., ISO 9001).

Benefits

- Opportunities for professional development and career growth.
- Medical
- Dental
- Insurance
- Traveling Allowance
- 1-month contractual bonus

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform you that only shortlisted candidates will be notified. Thank you for your understanding.
