## 募集要項

Our client is a reputable petrochemical company located at Kuantan, Pahang. They are looking for EHS Manager to take on responsibilities related to safety, health and environmental practices at their factory.

**Job Responsibilities**

- Develop, implement, and maintain EHS policies and procedures in line with corporate guidelines and local regulations.
- Assess environmental health and safety risks, opportunities and impacts, standards and regulations and advise on potential impacts stakeholders
- Implement programs and processes in alignment with the environmental health and safety regulatory of government, International Standard Organization (ISO) management system and corporate guidelines
- Deliver environmental health and safety activities, including emergency response plan, incident and accident management, training implementation and evacuation drill

- Participate and support regular environmental health and safety audits and certification program in compliance with established standards
- Handle environmental health and safety related records and reporting

#### **Job Requirements**

- Degree in Chemical Engineering or Occupational Safety & Health or equivalent
- Minimum 8 years of working experience in EHS Management in manufacturing environment
- Registered Safety and Health Officer (with green book) with DOSH
- Experience with ISO 14001 and ISO 45001 standards, including implementation and auditing
- Knowledge of chemical processing activities is an added advantage
- Ability to drive change, promote teamwork, build trust & respect
- Willing to be based at Kuantan, Pahang
- Applicants should be Malaysian citizens

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
