#### 募集要項

#### COMPANY OVERVIEW

A global consulting firm from Japan. We provide services in three main areas: management consulting, business process consulting, and IT consulting. Specifically, we are involved in management diagnosis and strategic planning, business and organizational reform, IT strategy, and system development.

In addition, we have 29 offices around the world and 132 affiliated partner offices to provide services suited to each region. Under the management philosophy of "Real Partner@," we aim to create value together with our clients and contribute to the transformation of companies and society.

#### JOB RESPONSIBILITIES

As a Business Consultant, the position will provide support to Japanese companies in improving their management strategies and business processes for their European offices and business investments. Specifically, we perform the following tasks

- Management strategy development: We develop management strategies in line with the client's business objectives. Support for business start-up, business expansion, business reform, etc. for European subsidiaries of Japanese companies and business investment destinations.
- Business Process Improvement Support: We support our clients in improving their business processes by optimizing and streamlining their workflow.
- Support for business process improvement: We support business process improvement by optimizing and streamlining workflows. On-site support by consultants familiar with the business environment and regulations in the EMEA region, including ITDD (due diligence), PMI, Sustainability, and CIO Advisory.
- Project Management: We manage the progress of business improvement projects and are in charge of schedule and budget management.
- Operation and Maintenance: We operate and maintain the business process after the improvement, and respond to any problems that may arise and propose improvements.
- Digital Transformation Support: Promote the client's digitalization and propose business improvement utilizing the latest technology.

### **Points of Attraction**

- We provide highly feasible support that is closely linked to the region. Consultants who are familiar with the situation in each country participate in the project and can accompany the client while respecting diverse values and business practices.
- By leveraging our strength as a consulting firm originating from Japan and our worldwide network, we are able to provide support in an optimal structure to meet the needs of multinational corporations and regional clients that are expanding globally.
- We emphasize value creation through "co-creation" with our clients, and we play a leading role as a partner in corporate and social transformation. In this way, we help companies solve their management issues and improve their corporate value.
- As an organization with a small number of elite members, we can be involved from the very beginning of the organization's development.
- In practice, you will work in a global environment, collaborating with team members in Japan, other European offices, and other countries.

### **JOB REQUIREMENTS**

[Required Requirements] \*Must meet all of the following requirements.

- Business Administration or IT degree or equivalent experience.
- At least 5 years of experience in sustainability, ESG, Environmental or Energy related consulting projects. Or a strong interest in the field.
- Business level English (German a plus).
- Experience in business consulting related to your business line.

[Managerial fit]

- Interested in IT technology trends and willing to actively and proactively adopt them.
- Persistence and the ability to follow through to the end.
- Those who can work autonomously rather than waiting for instructions, such as asking for instructions with their own ideas.

### **BENEFITS**

- Paid vacation 28 days
- Working hours: 40 hours/week
- ※hybrid work can be considered.

- Working hours: 9:00-18:00

※Flexible depending on the availability of tasks.

- Full-time employment

- Bonus paid

- Flex Time system

- Transportation expenses not included

- Location: Düsseldorf
