募集要項

A newly setup MNC is seeking talented individuals with an innovative mindset to join their expanding engineering team. As a market leader in current sensor manufacturing, they are dedicated to pushing the boundaries of what's possible and shaping the future of our industry. This is your opportunity to embrace your passion for innovation and technology and flourish in dynamic environments that value and nurture creativity.

Job Responsibilities:
- Inspect buildings and facilities to identify any issues related to structural, electrical, plumbing, or other systems.
- Create and implement preventive maintenance procedures for maintaining building infrastructure and equipment.
- Monitor systems performance and functionality, making recommendations for improvements or upgrades.
- Coordinate with external contractors and internal teams for repair and maintenance works.
- Ensure all facilities meet compliance with laws and regulations.
- Monitor consumption and manage efforts to reduce energy usage and cost.
- Manage waste disposal and recycling systems.
- Address emergency issues promptly and coordinate swift responses.
- Document procedures, incidents, maintenance activities, and keep an inventory of all building components and equipment.

Job Requirements:
- Bachelor's degree in mechanical, electrical, or industrial engineering.

- At least 3 years of experience as a facilities engineer or in a similar role.
- Experience with AutoCAD, SAP, and MS Office.
- Knowledge of building process and construction principles.
- Good verbal and written communication skills.
- Troubleshooting and problem-solving skills.
- Project management skills.
- Must be a certified Chargeman BO11kv
