募集要項

JOB RESPONSIBILITIES

- Oversee the maintenance and continuous improvement of the Risk Management System and its instructional documentation.
- Ensure compliance with ISO 31000 and other requirements (laws, regulations, client requirements and Group requirements), including participation in audits.
- Develop, maintain, and improve instructional documentation (e.g., Risk Management Guideline).
- Manage the risk register, provide transparency to risk and mitigation owners, and ensure regular risk reviews.
- Assist the Senior Manager Risk Management with regular risk reporting and coordination of risk committees.
- Ensure all data centers have a standardized Threat, Vulnerability, and Risk Assessment (TVRA) reviewed annually.
- Prepare risk analyses and the Annual Risk Report regularly and as needed.

- Implement and maintain the Risk Report for Clients and Business Partners.
- Collaborate with property insurance on site risk assessments and follow-up actions.
- Raise awareness for Crisis Management (CM) and Business Continuity Management (BCM) through staff training.
- Foster good relationships with all Data Center sites and other departments.
- Monitor new risk developments.
- Drive standardization of risk tools within GDC.
- Contribute to management reports on Risk Management topics.
- Support business departments and client management with Risk Management queries.
- Promote a holistic understanding of resilience, enabling effective synergies between Risk Management, Insurance Management, Travel Security, and CM & BCM.
- Ensure Risk Management aligns with the Integrated Management System (IMS).
- Coordinate and initiate resilience measures with Health, Safety, and Environment (HSE) Management and Security Management departments.
- Support the Senior Manager Risk Management and contribute to a positive team culture.

JOB REQUIREMENT

- Strong understanding of Risk Management and relevant standards (e.g., ISO 31000).
- Several years of professional experience in Risk Management.
- University degree (Graduate/Master/Diploma) or comparable professional experience.
- Additional relevant professional training/qualifications are desirable.
- Fluent in English; multilingual skills are an advantage.
