募集要項

This position is responsible for managing indirect procurement spend within the Japan market, with a primary focus on strategic sourcing and driving procurement centralisation initiatives. Category coverage: logistics services, outsourcing, real estate, communication services, IT, car leasing, MRO, travel, facility management services, financial services, energy, etc.

Client Details

A renowned leader in the vertical transportation industry in Japan, this organization is celebrated for its cutting-edge innovation, exceptional engineering, and commitment to safety. With a focus on enhancing urban mobility and sustainability, it has been instrumental in shaping modern infrastructure solutions that prioritize efficiency and customer satisfaction.

Description

- Develop and implement procurement strategies for indirect purchasing, focusing on cost optimization and supply risk management, informed by detailed spend analysis.
- Lead strategic initiatives and projects to advance procurement objectives and organizational goals.
- Conduct negotiations on pricing and business terms with vendors to secure optimal agreements.
- Perform cost analysis and validate pricing to ensure alignment with budgetary and market benchmarks.
- Propose and execute process improvement plans, driving efficiency and continuous enhancement in procurement operations.

Job Offer

- Full remote working
- Opportunity to drive the change and be part of transformation
- Career path to Senior Manager

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Maria Kosareva.

スキル・資格

- Proven experience in indirect purchasing and procurement management.
- Strong ability to think strategically and develop approaches based on detailed spend and cost analysis.
- Proficiency in business-level English and fluency in Japanese.

*Must currently reside in Japan with a valid working visa.
