募集要項

We are looking for a senior front-end developer for a major IT company

Client Details

This major Japanese technology conglomerate, operates the largest e-commerce platform in Japan, offering a marketplace for merchants to create customizable storefronts. Beyond online retail, it has diversified into financial services, digital content, and telecommunications, creating a robust ecosystem that enhances customer loyalty through its innovative points system.

Description

- As a Front End Developer, you will be responsible for developing and maintaining web applications using modern technologies and frameworks. You will work closely with our design, backend, and product teams to create seamless and performant user interfaces. Your role will involve translating design wireframes into high-quality code, optimizing applications for maximum speed, and ensuring the technical feasibility of UI/UX designs.

Job Offer

- International working environment
- Great work life balance and competitive pay
- Off：Weekends/Holidays
- Work Hours：9:00-17:30 ※Break： 12:00-13:00

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Tianhong Han on +813 6832 8977.

スキル・資格

- Proven experience as a Front End Developer or similar role.
- Strong proficiency in HTML, CSS, and JavaScript.
- Hands-on experience with React.js and TypeScript.
- Experience with CI/CD pipelines and tools like Jenkins and AWS CodeBuild.
- Ability to migrate front-end applications to React.
- Experience with Docker and containerization.
- Familiarity with responsive design frameworks like Bootstrap or MUI.

会社説明

Our Client is a leading IT company
