## No Japanese Needed -AI Engineer/Tech lead

**Hot Job!**

## 募集職種

## 人材紹介会社

ネクスト・ムーブ 株式会社

## 求人ID

1508626

## 業種

インターネット・Webサービス

## 会社の種類

中小企業 (従業員300名以下)

## 外国人の割合

外国人 半数

## 雇用形態

正社員

## 勤務地

東京都 23区

## 給与

経験考慮の上、応相談 ~ 1600万円

## 更新日

2025年02月06日 05:00

## 応募必要条件

## 職務経験

3年以上

## キャリアレベル

中途経験者レベル

## 英語レベル

ビジネス会話レベル

## 日本語レベル

基礎会話レベル

## 最終学歴

専門学校卒

## 現在のビザ

日本での就労許可が必要です

## 募集要項

- Lead the development and implementation of cutting-edge generative AI technologies, focusing on image and voice recognition, as well as general AI (neural networks and classifiers).
- Conduct research on academic papers and open-source models to address customer needs and business challenges.
- Verify, apply, and improve open-source models for real-world business problems, ensuring their effective implementation and environment setup.
- Convert, implement, and accelerate existing model structures to enhance AI performance.
- Use actual customer data and real-world environments to verify, improve, and optimize model results.
- Lead AI engineering teams in developing solutions and products based on constructed models.
- Determine the feasibility and ROI of AI research and development efforts, providing insights and proposals for

- business strategy.
- Drive AI R&D to create competitive advantages and generate business value.
- 

## スキル・資格

- Artificial Intelligence, Machine Learning, or a related field.
- Proficiency in Python programming.
- Experience with deep learning frameworks such as Pytorch, TensorFlow, etc.
- Experience in developing algorithms for computer vision or natural language processing based on academic research.

## Preferred Skills & Experience:

- Experience in developing and applying image generation models and large language models (LLMs).
  - A track record of submitting and presenting research papers in computer vision, natural language processing, or related fields.
  - Practical experience applying deep learning and machine learning techniques to real-world products, with knowledge of infrastructure and web technologies.
-
