募集要項

Service Delivery Manager

Our client is a world-class leader in providing innovative solutions and services in data center construction and engineering. Their mission is to deliver high-performance, scalable, and secure infrastructure for businesses across the globe.

- Part of a global network with over 100 offices worldwide.
- A trusted partner in delivering data center solutions across key markets.

JOB RESPONSIBILITIES:

- **Client Relationship Management:** Serve as the main point of contact for overseeing the client services relationship.
- **Service Improvement & Reporting:** Create, track, and share Service Delivery Reports, manage meetings, and handle escalations.
- **Service Activation & Compliance:** Carry out client-facing service activation tasks and ensure compliance with SLAs.
- **Incident & Change Management:** Oversee major incidents, suggest process modifications, and manage changes.
- **Customer Satisfaction:** Track customer satisfaction and devise strategies for service enhancement.

JOB REQUIREMENTS:

- At least **one year of experience** in a medium- to large-sized **ICT firm**, preferably in customer care or service delivery.
- A **degree in engineering** (Bachelor's, Master's, Professional, Vocational, or similar).
- Capacity to build trusting bonds with both external clients and internal stakeholders.
- Excellent ability to oversee the coordinated provision of services.
- Proficient in both written and spoken communication.
