募集要項

The Company
This company is a major player in the repair of aircraft parts and MRO Services. they provide unrivalled cost-efficient repairs with market benchmark quality. They are looking for a CMM Program Engineer to join their team.

CMM Program Engineer Requirements
• Degree in Mechanical, Manufacturing, Aerospace Engineering or its equivalent
• Minimum of 3 years working experience in CMM programming or tooling design & fabrication or process engineering. Knowledge and practical experience in CMM programming and Measurement in Mituitoyo and/or Zeiss systems
• Experience with CMM programming software such as Mcosmos, PC-DMIS, Calypso, etc • Knowledge in 3D modelling CAD design, manufacturing and machining process of jigs & fixtures (CAD/CAM)
• Knowledge in Geometric Dimensioning and Tolerance (GD&T) and Management System Analysis (MSA)
• Good knowledge of Minitab and Autocad software

Responsibilities:
• Develop and maintain CMM programs for production, FAI, R&D and other applications • Assist in creating accurate and repeatable CMM programs based on end-user's requirements
• Assist in validating CMM programs by conducting First Article Inspection (FAI) or applicable MSA studies and adjust the program as necessary to ensure accuracy

• Troubleshoot and resolve all technical issues relating to the machine and be the focal point representing ASSB to liaise with the vendor for all matters relating to the CMM
• Prioritize and utilize of all production CMMs to cater for the various needs (measurement of "live" parts, program development for FAI, KVP and R&D activities initiated by Engineering)
• Support Metrology Laboratory in CMM Programming, if require
