募集要項

Summary:
We are seeking a highly skilled and experienced Database Specialist to join our team. The ideal candidate will be responsible for designing, implementing, and maintaining our database systems. Key responsibilities include data modeling, database administration, performance tuning, and ensuring data security and integrity. The successful candidate will have a strong understanding of database technologies, SQL, and data warehousing concepts.

Responsibilities:

- Design, implement, and maintain database systems and management tools.

- Install, update, and maintain computer databases.
- Assess and optimize database performance.
- Troubleshoot and resolve database processing and programming issues.
- Implement data security and disaster recovery procedures.
- Collaborate with application development teams.
- Provide technical support to users.
- Stay current with industry trends and technologies.

Additional Opportunities:

- **Technical Growth:** Deepen database expertise, master data warehousing and analytics, and learn automation tools.
- **Domain Knowledge:** Gain travel industry insights, analyze user behavior, and contribute to data-driven solutions.
- **Leadership Roles:** Lead database projects, oversee data security, and become a database architect.
- **Career Diversification:** Transition to data analytics, business intelligence, marketing, or customer relationship management.
- **Global Exposure:** Collaborate with international teams, attend global conferences, and enhance language skills.

Technology Stack:

- Languages: PHP (Laravel, CakePHP), jQuery, React (Next.js, Redux), Vue.js (Nuxt.js, Vuex), SCSS
- Testing: Jest, Puppeyeer, PHPUnit
- Development environment: npm, Yarn, Gulp, Webpack
- Virtual environment: Docker
- Infrastructure: AWS, GCP, Kubernetes
- Database: MySQL, Cloud Spanner, Redis
- Log analysis: fluentd + Elasticsearch (or Stackdriver) + Kibana, Sentry
- API definition: Swagger
- Editor, IDE: Visual Studio Code

Our Mission:
Driven by Based on our mission of balancing business and social contribution, we have developed and operated "skyticket", a travel booking site that allows users to search and reserve affordable airfare and hotels.

Our Achievements:
- Over 20 million downloads of our app since its release in 2015
- Profitable even during the COVID-19 pandemic, demonstrating resilience across the travel industry
- Record-breaking profits achieved in June 2023
- Expansion to 6 subsidiaries overseas
- Our Global Workforce :The percentage of international employees hired exceeds 50%, we are fostering a truly global development environment.

Why Join Us?:
- Embrace a Global Environment
Join a team of talented individuals from Amazon headquarters, Accenture, Salesforce, and our Future Creator talent acquisition program.
Thrive in a multicultural environment, working in both Japanese and English, enhancing your soft skills and increasing your market value.

- Drive Innovation and Growth
Be part of a company that actively creates new businesses, having launched three new services since 2023.
Contribute to cutting-edge AI solutions that are shaping the future of travel.

- Seize Opportunities for Career Advancement
Develop your global expertise and gain valuable experience that will set you apart in the job market.
Take on challenging projects and make a real impact on our company's success.
In today's rapidly evolving landscape where AI is playing an increasingly prominent role, simply coding skills are no longer enough to guarantee market value.

For those seeking a global challenge and the opportunity to make a difference, "skyticket" offers a wealth of opportuni

----
