募集要項

Design, build, and maintain robust database infrastructure to meet high-demand data needs. Collaborate with cross-functional teams to ensure database performance, security, and scalability on both private and public cloud platforms.

Client Details

Join a leading global technology company known for its innovation and dedication to providing top-notch services. The company is at the forefront of technological advancements, offering a vibrant and diverse work environment that fosters creativity and growth.

Description

- Optimize and enhance SQL operations and implementations.
- Manage databases in production and staging environments.
- Collaborate with product teams to refine and execute data warehousing strategies.
- Design, implement, and monitor disaster recovery plans in partnership with engineering and DBA teams.

- Perform technical troubleshooting and resolve database-related issues.

Job Offer

- Professional Growth: Opportunities to work with cutting-edge technologies and platforms, alongside a team of global experts.
- Cultural Exposure: Engage with a diverse, multinational team, broadening both your technical and cultural perspectives.
- Compensation: Competitive salary with additional benefits, including support for professional certifications and career development

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Argia Pradana at +81 3 6832 8642.

スキル・資格

- A collaborative and innovative work environment.
- Opportunities for professional growth and development.
- Exposure to the latest database technologies and tools.
- Competitive compensation and benefits package.
- Work on high-impact projects with a global reach.
