### 募集要項

#### Job Description:

- To deliver the numbers, coordinate with the internal departments in charge of sales, marketing, and product. As the lead of their own territory, they must develop a go-to-market strategy.
- Oversee the whole sales process and give the executive team comprehensive pipeline visibility.
- Examine and determine how we might resolve the issues with client engagement and retention. Serve as a reliable resource for the main accounts about user engagement and retention matters.
- Establish and preserve C-Level connections with the designated Enterprise Accounts.
- Inform potential customers with market developments and creative fixes for the main problems facing the ecosystem.
- Analyse major developments in the logistics and supply chain sectors and spot new trends to influence product development in the future.

- Managing partners and assisting in lead generation
- In order to achieve the growth goals, collaborate with marketing colleagues to lead cross-functional, cross-channel marketing initiatives.
