募集要項

COMPANY OVERVIEW

Our client, a global pharmaceutical company is now seeking a **Statistical Programmer** to be part of their team in Singapore.

JOB RESPONSIBILITIES

- Ensure all programming-related tasks are performed with high scientific and technical quality in compliance with SOP and policies.
- Familiar with the systems used in the Biometric Division, such as the Clinical Data Repository.
- Identify and participate in the development and implementation of new procedures and methodologies to increase the accuracy and efficiency of the programming processes.
- Participate actively in meetings, discussions, knowledge sharing, and activities covering all aspects of clinical data programming.
- Perform Review/QC and documentation of the programming.
- Assist in the development and QC of tools and programs implemented.

JOB REQUIREMENTS

- Degree in Statistics/Computer Science/Engineering or equivalent.
- 8 – 10 years of relevant experience as a Statistical Programmer in Pharmaceutical related industry.

- Statistical, analytical, or equivalent work experience preferred.
- Excellent SAS Programming experience.
- Strong analytical and problem-solving skills for the design, creation, and testing of programs.
- In-depth knowledge of CDSIC (Clinical Data Interchange Standards Consortium) in SDTM (Study Data Tabulation Model) and ADAM (Analysis Data Model).
- A solid team player, and at the same time able to work independently.
- Good communication and coordination skills and ability to make decisions.
- Fluent in written and spoken English.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
