#### 募集要項

**Position:** IT Solutions/ IT Sales (Japanese Speaking N2/N1)

**Location:** Asoke

**Working Date and Time:** Monday – Friday 9.00-6.00 P.M.

**Salary range:** 50,000 – 90,000 (Negotiable)

#### Job Descriptions:

- Develop and maintain relationships with existing clients, understanding their business needs and how our solutions can meet those needs.
- Network at industry events and through professional organizations to generate leads.
- Develop and implement sales strategies to achieve sales targets.

- Present and demonstrate our software capabilities to potential clients.
- Understand the competitive landscape and position our solution effectively against competitors.
- Conduct needs analysis to understand the specific requirements of clients.
- Work with legal teams to ensure contracts are compliant and beneficial.
- Provide after-sales support, ensuring client satisfaction and resolving any issues.
- Stay updated on industry trends and market conditions.
- Provide feedback to the product development teams based on client needs and market demands.
- Prepare and deliver sales reports to management, highlighting sales performance, challenges, and opportunities.
- Work closely with marketing teams to develop effective sales materials and campaigns.

**Required Skills and Qualifications:**

- Minimum of 3-5 years of experience in sales, preferably in the IT or software field, with Japanese language proficiency.
- JLPT certified level N1-N2 with excellent Japanese skills, both written and spoken.
- TOEIC score of 800 or higher and/or IELTS score of 5.5 or higher are preferred.
- Bachelor's degree in business administration, marketing, engineering, or a related field.
- Understanding of the manufacturing business, including production planning, purchase order issuance, sales order issuance, costing, and inventory management, is an advantage.
- Strong analytical, problem-solving, and interpersonal skills, with a positive attitude.
- Ability to travel as needed to meet with clients and attend industry events.
