募集要項

Job Title: Sales Engineer/Senior Engineer

Location: Delhi [Haryana, Rajasthan and Uttar Pradesh including NCT region]

Responsibilities:

- Achieve budgeted sales and order booking targets for the company's in the assigned region, while managing direct sales and supporting dealers to maximize sales in allocated areas.

- Evaluate market potential and enhance market share by building and maintaining strong relationships with customers, consultants, and key accounts in the industrial segment.

- Understand customer needs and implement data-driven proposals to influence buying decisions, while motivating and

guiding dealers and distributors to achieve their targets.

- Monitor and manage dealer and direct receivables, track competition activities, and develop strategies to counter them effectively.

- Establish and maintain direct relationships with end customers and dealers, coordinating closely with the service team to address service-related queries.

- Support dealers with pending issues and payments, assist in major deal negotiations, and interact with field service engineers to identify business opportunities.

- Organize and conduct promotional activities such as service camps and roadshows, conduct in-house training for dealer teams, and ensure timely updates in the KPCM system for deal management.

Customer Relationship Management:

- Develop and maintain long-term customer relationships by regularly addressing needs, providing tailored solutions, and offering technical support to ensure satisfaction and loyalty.

- Collect and analyze customer feedback to inform business improvements, proactively resolve issues, and support purchasing decisions with ROI and TCO analyses.

- .

Qualifications:

- Degree or Diploma in Mechanical/Electrical Engineering.

Experience & Knowledge:

- 2 to 5 years of experience in compressor sales or related fields such as heavy machinery, rotating equipment, or pneumatic equipment sales.
- Proficiency in air compressors is preferred.
- Language skills: Hindi, English, and the local language.
