## 募集要項

As an Infra Project Manager, you will be responsible for managing and executing a variety of technology-focused projects in the retail industry. This position requires expertise in project planning, execution, monitoring, and closure.

## Client Details

Our client is a well-established, large organization in the retail and luxury sector. Located in Minato-Ku, they pride themselves on their commitment to innovation and excellence in the technology department.

## Description

- Manage and execute technology projects from initiation to closure
- Develop detailed project plans and monitor progress
- Collaborate with internal teams to design, develop and implement digital projects
- Deliver projects on time ensuring quality standards are met
- Identify potential risks and devise contingency plans
- Develop support documentation including risk logs and requirement specifications
- Monitor and report on project progress
- Perform team management duties when necessary

**Job Offer**

- A competitive salary in the range of 8.1M - 9.9M JPY
- Comprehensive benefits package
- An opportunity to work in innovative environment in Minato-Ku
- Excellent career progression opportunities
- A positive and supportive company culture
