募集要項

We are seeking a motivated and skilled Kotlin Developer who will contribute to the development and enhancement of our cutting-edge retail technology applications. The successful candidate will be innovative, detail-oriented, and eager to drive the future of our technology department in Tokyo.

Client Details

Our client is a large organization operating in the retail industry. Being an international player, the company is committed to innovating and providing exceptional services to customers globally from its base in Tokyo.

Description

- Develop and maintain high-quality software design and architecture.
- Identify, prioritize and execute tasks in the software development life cycle.
- Develop tools and applications by producing clean, efficient code.
- Automate tasks through appropriate tools and scripting.

- Review and debug code.
- Perform validation and verification testing.
- Collaborate with internal teams and vendors to fix and improve products.
- Document development phases and monitor systems.

Job Offer

- Long-term renewable haken contract
- Potential to covert permanent employee in the future
- Competitive salary
- Attractive benefits
- International work environment
- Work hours: 9:00~17:30 Monday to Friday

We invite all qualified Kotlin Developers to apply and look forward to welcoming the successful candidate to our dynamic team in Tokyo.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Hikari Takamura on +813 6832 8903.

スキル・資格

A successful Kotlin Developer should have:

- Proficiency in Kotlin and other programming languages.
- Extensive experience with software development life cycle (SDLC) processes.
- Excellent understanding of software design and programming principles.
- Analytical thinking and problem-solving capabilities.
