募集要項

Our client is seeking an experienced Senior Mobile Developer with expertise in both iOS and Android platforms. This role is ideal for a professional with a passion for mobile development, as well as a broader technical skillset in frontend, backend, or infrastructure development.

Client Details

Our client is a large organization in the retail sector, headquartered in Tokyo. They pride themselves on their innovative technology department, which is at the forefront of mobile application development. Committed to excellence, they seek to hire the best minds in the industry to maintain their competitive edge.

Description

- Design, develop, and maintain high-quality mobile applications for iOS and Android platforms.
- Participate in code reviews and promote knowledge sharing within the team to foster technical growth.
- Troubleshoot and resolve technical issues during development, optimizing existing systems.

- Collaborate across frontend, backend, or infrastructure domains to drive integration and innovation.
- Contribute to building and optimizing the mobile CI/CD process to enhance development efficiency.

Job Offer

- Long-term renewable haken contract
- Potential to covert permanent employee in the future
- Competitive salary
- Attractive benefits
- International work environment
- Work hours: 9:00~17:30 Monday to Friday

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Hikari Takamura on +813 6832 8903.

スキル・資格

- Strong proficiency in React Native
- Solid experience with frontend development technologies, including React, TypeScript, and Redux.
- Knowledge of authentication and push notification technologies, such as JWT and Firebase.
- Experience with frontend testing frameworks, including Jest, and the ability to write automated tests.
- Understanding of modern backend architectures and tools such as Spring Boot, MyBatis, Redis, Docker, and Kubernetes

会社説明

The company is a large organization, a part of the retail industry, and headquartered in Tokyo. Known for its commitment to innovation and excellence, it delivers superior services and products to its customers through its robust technology department.
