### 募集要項

## **Key Responsibilities:**

- Perform daily, weekly, and monthly maintenance on the PBT system, including testing, inspection, adjustment, and
  calibration tasks, both at heights and within equipment enclosures.
- Maintain, test, and troubleshoot key systems, including:
  - Accelerator systems
  - Irradiation devices
  - Patient alignment systems
  - Safety interlock systems

- Monitor the operation of the PBT system and identify areas for performance improvement.
- · Adopt and integrate new technology, products, and processes to enhance system functionality.
- Respond promptly to service calls, ensuring timely resolution and customer satisfaction.
- Fulfill work orders, submit reports (including timecards, working reports, and expense reports), and adhere to company and customer procedures.
- · Assist with troubleshooting and commissioning activities when necessary.
- Ensure compliance with regulatory standards, including radiation safety regulations, company policies, and applicable laws.
- Work with high-voltage equipment, magnetic fields, and in radiation-prone environments.
- · Rotating shift work is required.

# Requirements:

- Diploma or higher in Electrical Engineering or a related discipline.
- 3+ years of relevant experience with large-scale electrical systems.
- Strong understanding of electrical systems, particularly in environments involving high-voltage, radiation, and electromagnetic fields.
- Proficient in reading and interpreting engineering documents (e.g., schematics, circuit diagrams, piping diagrams).
- · Experience using electronic test and measurement instruments such as DVM, oscilloscopes, and micrometers.
- Capable of working independently as well as collaboratively within cross-functional teams.
- Excellent communication, problem-solving skills, and attention to detail.
- Ability to understand and troubleshoot complex equipment and systems.
- · Familiarity with Microsoft Word and Excel.
- Comfortable with working at heights and lifting up to 20 kg repeatedly.
- A customer-focused mindset with a strong sense of teamwork.
