募集要項

Roles and Responsibilities: -

- Assist EHS Manager to ensure the facility maintains compliance with safety and environmental programs, regulations, and company policy.
- Investigate accidents, incidents and near-misses to identify root causes and implement preventive measures.
- Lead job hazard analysis and hazard assessments to identify loss potential of our systems and processes as well as recommending appropriate corrective actions.
- Waste management, process waste treatment like ETP, STP etc.
- Train associates, supervisors, and other employees in the areas of general safety and environmental awareness, specific program requirements and specific job requirements.

- Conduct regular facility wide inspections and audits to identify & correct potential hazards and ensure compliance with regulations.
- Work with EHS Manager to review location standards, policies, and practices as necessary to assure they are current and in concert with company and/or regulatory requirements, making revisions as necessary.
- Work with site ergonomic specialist on ergonomic assessments and improvements.
- Promote a SAFE First culture of zero incidents and strong value on our human resources.
- Assist EHS Manager with ISO 45001 and ISO 14001 standards.
- Interface with employees on improvement projects, idea implementation, safety committee etc.
