募集要項

Join our team as an Inside Sales Specialist and contribute to providing world-class solutions to customers in the energy, petrochemical, and construction industries. This role offers a dynamic environment where you can grow professionally.

Client Details

We are a global leader in providing high-quality measurement solutions, catering to a wide range of industries including oil and gas, power generation, chemical, and construction. Known for our innovative and reliable products, we pride ourselves on supporting customers with tailor-made solutions that meet their need

Description

- Act as the primary point of contact for EPC (Engineering, Procurement, and Construction) customers.
- Handle sales inquiries, provide product recommendations, and create accurate quotations.
- Collaborate with internal teams to ensure smooth order processing and on-time delivery.
- Maintain and update customer records in the CRM system.
- Support sales representatives in achieving their targets by providing back-office support.

Job Offer

- Play a key role in serving major industries and contributing to cutting-edge projects worldwide.
- Enjoy a supportive work culture with competitive compensation and benefits.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Saki Kanematsu at +81 3 6832 8904.

スキル・資格

- Experience in inside sales or sales administration
 - Ability to work collaboratively and adapt to a fast-paced environment.
 - Business-level proficiency in Japanese and English.
 - Proficiency in Microsoft Office Suite, especially Excel, Word, and PowerPoint.
