募集要項

We are looking for a Network Security Engineer to lead, plan, and execute security infrastructure projects using industry-leading technologies. This role offers the opportunity to work with strategic customers, drive technical implementation, and provide innovative security solutions.

Client Details

As a global leader in cybersecurity and digital transformation, our client provides state-of-the-art security and cloud solutions that protect businesses worldwide. Their technology enables enterprises to build, deliver, and secure their digital experiences, ensuring seamless operations and robust cyber defense.

Description

- Lead the planning, installation, and integration of security solutions in various IT environments.
- Deploy and implement network security policies to enhance protection and compliance.
- Collaborate with customers throughout the project lifecycle, from architecture design to optimization.
- Work closely with global support and engineering teams to resolve technical challenges and improve customer satisfaction.

Job Offer

- Flex Program: Work from home or the office, with flexible arrangements tailored to your needs.
- Competitive salary and benefits covering health, finances, family, and professional growth.
- Work on high-impact security projects with global enterprises.
- Opportunities for learning and career development in a cutting-edge technology environment

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Peryhan Essam on +813 6832 8691.

スキル・資格

- Minimum 3 years of working experience in the IT security field
- Strong knowledge of Networking, Network Security (Firewalls), and Operating Systems.
- Ability to collaborate with remote/global teams and manage multiple projects effectively.
- Experience with network security platforms, scripting, cloud administration (VMware, Public Cloud), and configuration management is a plus

会社説明

As a global leader in cybersecurity and digital transformation, our client provides state-of-the-art security and cloud solutions that protect businesses worldwide. Their technology enables enterprises to build, deliver, and secure their digital experiences, ensuring seamless operations and robust cyber defense.
