募集要項

We are an MNC specializing in the manufacturing of engineered parquet and laminated flooring. We have 105 locations all over the globe, 30 of which are production sites. To strengthen our business and lay a strong foundation for the future, we are always on the lookout for talent. Join us as Automation Engineer and be part of our strong, dynamic and innovative team.

Job Responsibilities
- System Integration: Integrate automated systems with existing machinery, software, and IT infrastructure.
- Process Optimization: Analyse current processes, identify opportunities for automation, and implement solutions to optimize performance, quality, and cost-efficiency.
- Troubleshooting & Maintenance: Troubleshoot issues with automated systems and provide technical support to minimize downtime.
- Programming & Software Development: Write and test code for automation systems, including PLC (Programmable Logic Controllers), SCADA systems (Supervisory Control and Data Acquisition), and other automation platforms.
- Documentation & Reporting: Create detailed documentation of automation systems, including technical specifications, troubleshooting guides, and process flow diagrams.
- Collaboration: Work with other internal stakeholder to ensure seamless automation system integration.
- Continuous Improvement: Stay up to date with the latest industry trends, automation technologies, and best practices to improve system performance and cost-effectiveness.

Job Requirements

- Bachelor Degree in Electrical or Computer Engineering
- Min 2-3 years relevant experience in Mechatronics or PLCs programming and Mechanical / Electrical Engineering related disciplines.
- Strong analytical skills and ability to troubleshoot complex automation issues.
- Knowledge in programming languages - Siemens PLC Step 7, TIA Portal, WinCC, Omron PLC
- Familiar with inverter (Lenze, SEW, KEB, Schneider)
- Knowledgeable in schematic electrical diagram, Controls Engineering techniques and practices.
- Excellent understanding of Computer Applications and Microsoft Office.
- This role is based in Sg Petani
