**募集要項****Position:** SENIOR SERVICE ENGINEER**Industry:** Material Handling Machine, Mobile Crane, Ariel Work Platform**Salary:** 60,000 – 90,000 THB / Month**Location:** Bangkok

**Job Summary:** The Service Engineer will be responsible for the maintenance, repair, and technical support of mobile cranes, material handling machines, and aerial work platforms. This role requires a strong technical background, excellent problem-solving skills, and the ability to work independently and as part of a team.

**Key Responsibilities:**

- Perform routine maintenance and repairs on mobile cranes, material handling machines, and aerial work platforms.
- Diagnose and troubleshoot mechanical, electrical, and hydraulic issues.

- Conduct inspections and preventive maintenance to ensure equipment is operating safely and efficiently.
- Provide technical support and training to customers and end-users.
- Maintain accurate service records and documentation.
- Collaborate with the sales and technical teams to address customer needs and provide solutions.
- Ensure compliance with safety regulations and company policies.
- Stay updated on industry trends, new technologies, and best practices.

**Qualifications:**

- Bachelor's degree in Mechanical Engineering, Electrical Engineering, or a related field.
- Minimum of 5 years of experience in servicing mobile cranes, material handling machines, or aerial work platforms.
- Strong knowledge of mechanical, electrical, and hydraulic systems.
- Excellent diagnostic and problem-solving skills.
- Ability to read and interpret technical manuals and schematics.
- Strong communication and interpersonal skills.
- Ability to work independently and manage multiple tasks.
- Willingness to travel to customer sites as needed.
