募集要項

Company Overview

One of the leading Japanese MNC into engineering and construction industry having industrial projects in PAN India location

Job Location: Sri City

Job Overview:

The Safety Officer is responsible for overseeing and implementing safety protocols and procedures within the construction company to ensure a safe working environment for all employees, subcontractors, and visitors. They will work closely with management, site supervisors, and workers to develop and maintain effective safety programs.

Job Responsibilities:

- Safety Program Development and Implementation:

- Develop, implement, and maintain safety policies, procedures, and programs by local, state, and federal regulations as well as industry best practices.
- Conduct regular safety audits and inspections of construction sites, equipment, and practices to identify hazards and ensure compliance.

- Training and Education:
 - Organize and conduct safety training sessions for employees and subcontractors, covering topics such as hazard recognition, personal protective equipment (PPE) usage, emergency procedures, and job-specific safety protocols.
 - Provide guidance and support to supervisors and workers on safety-related issues and promote a safety-conscious work culture.

- Risk Assessment and Hazard Mitigation:
 - Conduct risk assessments and job hazard analyses to identify potential safety hazards and implement measures to mitigate risks.
 - Collaborate with project teams to develop and implement safety plans for specific construction projects, ensuring adherence to safety standards throughout the project lifecycle.

- Incident Investigation and Reporting:
 - Investigate accidents, incidents, and near-misses to determine root causes and recommend corrective actions to prevent recurrence.
 - Maintain accurate records of safety incidents, injuries, and illnesses, and prepare reports for management and regulatory agencies as required.

- Regulatory Compliance:
 - Stay abreast of changes in safety regulations and industry standards and ensure that the company's safety policies and practices remain compliant.
 - Interface with regulatory agencies and participate in inspections and audits as needed.

- Safety Communication and Promotion:
 - Communicate safety-related information, initiatives, and updates to all levels of the organization through meetings, memos, and other channels.
 - Promote safety awareness and engagement among employees through campaigns, incentives, and recognition programs.

Job Requirements:

- Willingness to travel to construction sites as needed

- Ability to work in a dynamic environment and adapt to changing priorities.

- Minimum Graduate (Mandatory)

- Degree or Diploma in HSE (mandatory).

- First-aid certification (mandatory)

- Proficient in MS Office to fulfil safety requirements (mandatory).

- Preference to NEBOSH, IOSH (preferred).

- ISO:45001 & 14001 Certifications (Internal or Lead) (preferred).
