募集要項

Be responsible for managing fixed assets, tax, payroll, revenue recognition, and treasury functions, ensuring compliance, accurate reporting, and effective collaboration with finance teams and stakeholders. | WFH and flex time available.

Client Details

Our client is in the life sciences sector provides a wide range of testing services to ensure the safety and quality of various products, including food, water, and pharmaceuticals. They have expertise in areas like genomics, pharmacology, and clinical diagnostics, and have grown to employ around 60,000 people across 900 labs globally.

In Japan, the company operates a network of laboratories, supported by a central hub that manages key administrative functions. With about 1,000 employees, the Japanese division is a leader in testing services and is focused on significant growth in the near future.

Description

- Oversee accounting and tax for fixed assets, including CAPEX and depreciation.
- Handle tax-related tasks, including returns, audits, and business inquiries.

- Manage payroll accounting and ensure compliance with reporting standards.
- Monitor revenue recognition and collaborate on contract assessments.
- Manage cash flow, funding requests, and payment processing.
- Support working capital improvements and financial protocols.

Job Offer

- WFH and flex time available
- Career path
- Stable business
