## 募集要項

The Supply Chain FP&A Analyst role is a key position within the accounting and finance department of a FMCG company, primarily responsible for providing strategic financial insights to drive supply chain optimization.

## Client Details

Our client is a globally recognized and respected organization within the FMCG industry. With a large presence in Tokyo and an extensive international network, the company is renowned for its commitment to quality, innovation, and sustainability.

## Description

- Develop strategic financial plans for supply chain optimization.
- Conduct variance analysis and identify cost-saving opportunities.
- Collaborate with cross-functional teams to ensure accurate forecasting.
- Prepare financial reports and presentations for senior management.
- Support the development of annual budgets and quarterly forecasts.
- Provide financial analysis for capital investment decisions.
- Ensure compliance with financial regulations and standards.
- Participate in special projects as assigned.

**Job Offer**

- Comprehensive benefits package.
- Opportunities for professional growth and development.
- A collaborative and innovative company culture.
- The chance to make a significant impact in a leading FMCG company.

This is a fantastic opportunity for a motivated and analytical individual to join a thriving team in Tokyo. If you believe you have the skills and experience to succeed in this role, we encourage you to apply today.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Gleb Galiyamov on +813 6832 8999.

---

**スキル・資格**

A successful Supply Chain FP&A Analyst should have:

- A degree in Finance, Accounting, or a related field.
  - A strong understanding of supply chain processes in the FMCG industry.
  - Excellent financial modeling and analysis skills.
  - Proficient in MS Excel and financial software applications.
  - Strong communication skills, both written and verbal in English and Japanese.
  - An analytical mindset with the ability to interpret complex financial data.
-
